ABOUT ME

I am a full-stack software engineer and I am extremely passionate about making the world a better place. No matter the environment, I strive to be respectful so I can be the best leader and teammate that I can be. I intend to bring positive energy into the everyday lives of other people. I am unrelenting in my pursuit of seeking more knowledge and becoming a better version of myself everyday.

EXPERIENCE

SOFTWARE ENGINEERING FELLOW

Software Engineering Immersive | Jun 2020 - Sep 2020

- Learned Full-Stack Web Development by using frontend technologies (HTML, CSS, JavaScript) and backend technologies (Express, Ruby on Rails, Django).
- Learned Vue frontend framework
- Developed projects that fully demonstrated mastery in languages
- Immersed in over 400 hours of teachings by doing in-class assignments, homework, lab work, and creating projects.
- Projects:

OnTrack: First full CRUD Website using HTML, CSS, JavaScript and Express. Users can use it to track their daily exercise routines and daily meals. Users can also edit and delete their daily choices.

Website Portfolio: First website created using HTML, CSS, JavaScript. This website allows users to check out the many projects that I've created.

DeveloperToob: First collaborative project working in a group. As designated Git Master, learned how to work with Github in a team setting. Tested code before merging with the master branch. This full CRUD Website allows users to create accounts and watch videos specifically targeting both new and veteran developers. Technologies used are Ruby on Rails and Vue.

In-Check: Full CRUD Application using Vue CLI and Django. Users can create an account and create checklists. Checklists can have sub-items and can have due dates and descriptions.

EDUCATION

GENERAL ASSEMBLY

Software Engineering Immersive Jun 2020 - Sep 2020

BARUCH COLLEGE - THE CITY UNIVERSITY OF NEW YORK (CUNY)

Baruch College Aug 2014 - May 2018
