SUMMARY

I am a creative, artistic, and detail-oriented individual who can implement effective use of Google's material design guidelines and principles. I'm always interested in testing out design concepts and producing illustrative graphic layouts. Java specialist with 2-3 years of experience. I strive to design convenient and visually appealing apps to provide the best for the user's experience.

SKILLS

Java	jQuery	UML/Class Diagram
MySQL	REST API	Test Driven Development
HTML5	Spring MVC	CRUD Operations
CSS	Spring Boot	UX Design Principles
JavaScript	Thymeleaf	Material Design
Bootstrap	Git/Github	Photoshop

PROJECTS

ONE PIECE (MANGA) DATABASE WEBSITE (IN-PROGRESS)

- Create a webpage that tracks information on characters in the world of One Piece
- Webpage will track characters, locations, organizations, and societies

SUPERHERO SIGHTING WITH SECURITY CONFIG

- Created a web app developed using Java, Spring Boot, JDBC, MySQL, Thymeleaf and Spring Security
- Admins and users can view and interact with the website by securely connecting with proper credentials setup through Spring Security
- Admins can create superheroes, superpowers, organizations, locations, and sightings through CRUD operations
- The app uses MySQL as the database management system that tracks the data for sightings and locations of superheroes

VENDING MACHINE REST WEB SERVICE VIA JQUERY

- Interactive webpage built using HTML, CSS, JavaScript, jQuery, REST Web Service, and JSON
- Users can insert money and select items to purchase if available
- App returns change to the user has sufficient funds and update inventory

EXPERIENCE

MANAGER

J J Chan's Garden | 01/2013 - Present

- Manage staff of 12 employees and delegate tasks to ensure operations function efficiently
- Track and monitor revenue and inventory expenses on a daily basis
- Generate reports on a monthly basis to ensure accurate cash flow coincides with cash balance
- Assist with on-boarding new employees, processing new hire documentation, timesheets and payroll
- Adhering to the food and safety laws of New York State by maintaining the quality of food and ingredients by keeping updated inventory records
